EXPERIENCES

Project manager *@Flowout*
[2024–Now]

- Maintained a 97% client satisfaction score on Clutch by proactively managing quality of project deliverables.
- Lead and optimize daily operations for a team of 5 developers which includes task delegation, resolving technical bottlenecks, and align priorities to ensure on-time project delivery.
- Managed a portfolio of 80+ diverse clients, ranging from early-stage startups to venture-backed enterprise organizations with $50M+ in funding, adapting project frameworks to suit varying scopes.
- Directly oversaw diverse web solutions, successfully launching everything from high-converting, single-page marketing sites to complex enterprise websites.

Project manager *@easy.bi*
[2022–2024]

Managed a team of 2 developers to build the first working full-stack iteration of the platform used for effective employee communication in just 3 sprints of two weeks.

As an internal project manager worked on a hospitality content platform that improves the guest experience.

- By introducing agile methodology, improved project efficiency, delivery and release management.
- Coordinated three cross-functional international teams.
- Maintained documentation that increased project transparency.

Oversaw the end-to-end development of a custom forms engine which our client used to build a guided B2B selling configurator which resulted in a higher turnover of their leads.

- Worked with an agile team of 8 developers.
- Led stakeholder meetings where I initiated a concept for the project from scratch.

Multimedia Coordinator *@Epicoro*
[2021–2022]

- Coordinated mutliple stakeholders and requirements during the support for 50+ live streaming events and 100+ videos for the 6-month digitalization conference organised within the Slovenian Presidency of the Council of the European Union 2021.
- Within a small team of developers and designers, built 15+ simple and complex websites and web stores for various small and medium-sized companies.
